

*This land is your land this land is my land
From California to the New York island;
From the red wood forest to the Gulf Stream
waters*

*Nobody living can ever stop me,
As I go walking that freedom highway;
Nobody living can ever make me turn back
This land was made for you and me.*

*This land is your land this land is my land
From California to the New York island;
From the red wood forest to the Gulf
Stream waters*

*As I was walking that ribbon of highway,
I saw above me that endless skyway;
I saw below me that golden valley:
This land was made for you and me.*

This Land is Your Land

By: Woody Guthrie

What does your vision of
America look like?

*This land is your land this land is my land
From California to the New York island;
From the red wood forest to the Gulf Stream waters
This land was made for you and Me.*

I've roamed and rambled and I followed my
footsteps
To the sparkling sands of her diamond dese
And all around me a voice was sounding:
This land was made for you and me.
*This land is your land this land is my land
From California to the New York island;
From the red wood forest to the Gulf Stream
waters*

When the sun came shining, and I was stroll-
ing,
And the wheat fields waving and the dust
clouds rolling,
As the fog was lifting a voice was chanting:
This land was made for you and me.

*This land is your land this land is my land
From California to the New York island;
From the red wood forest to the Gulf Stream
waters*

In the shadow of the steeple I saw my people,
By the relief office I seen my people;
As they stood there hungry, I stood there
asking
Is this land made for you and me?
*This land is your land this land is my land
From California to the New York island;
From the red wood forest to the Gulf Stream
waters*

As I went walking I saw a sign there
And on the sign it said "No Trespassing."
But on the other side it didn't say nothing,
That side was made for you and me.

*This land is your land this land is my land
From California to the New York island;
From the red wood forest to the Gulf Stream
waters*
